

*A collective of industry-leading CPOs experienced and committed to advancing **supply chain decarbonisation**.*

Our network of transformation professionals is united in driving sustainability and innovation within supply chains. Procurement has significant impact and responsibility to support this mission and get involved.

Why join the CPO Network?

- **Upskill in Scope 3 and generative AI:** Collaborate with industry experts in these fields.
- **Enhance your network:** Connect with current and former CPOs, and procurement experts.
- **Elevate your profile:** Share your expertise in exclusive workshops.
- **Give back to the profession:** Contribute to the development of the procurement field.

Why is it important?

70%

of a company's emissions, on average, are supply chain.

Who is involved?

Our members bring a global perspective, spanning from the USA to New Zealand and representing diverse industries, including pharmaceuticals, real estate, IT and banking.
